How to install

Install ready-to-paste package

- Download the latest version at <https://store.mageplaza.com/my-downloadable-products.html>
- Installation guide: <https://www.mageplaza.com/install-magento-2-extension/>

How to upgrade

Backup

1. Backup your Magento code, database before upgrading.
2. Remove AutoRelated folder
3. In case of customization, you should backup the customized files and modify in newer version.

- 
4. Now you remove app/code/Mageplaza/AutoRelated folder. In this step, you can copy override AutoRelated folder but this may cause of compilation issue. That why you should remove it.
 5. Upload new version
 6. Upload this package to Magento root directory
 7. Run command line:

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:static-content:deploy
```
